## 🎓 EDUCATION

- 2023 – 2027      **Bachelor of Technology - Computer Science Engineering**  
SR University Warangal, India  
Specialization in Artificial Intelligence and Machine Learning  
• GPA: 6.5/10
- 2023      **Telangana Board of Intermediate Education**  
Sri chaitanya junior college, Khammam, India  
Mathematics, Physics, and Chemistry  
• Percentage : 70%
- 2021      **Secondary School Certificate**  
Harvest Public School Khammam, India  
Telangana Board of Secondary Education  
• GPA: 10/10

## 🧠 SKILLS

### Technical:

- MS Excel (basic formulas, charts)
- PowerPoint
- Google Forms (survey design & data collection)
- Basic Data Analysis
- Documentation

### Soft Skills:

- Communication
- Teamwork
- Time Management
- Adaptability
- Problem Solving

## 📁 PROJECTS

### Weather Data Analysis using High Performance Computing (HPC)

Reducing Execution Time using Parallel Computing

**Description:** Developed a system to analyze large-scale weather datasets using **parallel processing** to improve execution speed compared to traditional sequential methods.

- Built parallel data processing system using Python multiprocessing
- Compared serial vs parallel execution and improved performance for large datasets
- Visualized execution time and speedup using Matplotlib

### • Tech Stack:

Python, NumPy, Pandas, Multiprocessing, Matplotlib

### Addiction Control Features for Instagram Reels | Product Case Study

2026

- Conducted user observation and survey research (Google Forms) to analyze excessive Reels usage among students

- Identified key problems such as prolonged screen time, productivity loss, sleep disruption, and difficulty stopping usage
- Proposed digital well-being features including time limits, focus mode, break reminders, auto-lock, sleep protection, and usage dashboard
- Evaluated business impact and defined success metrics for implementation by Meta Platforms
